- Amano Marketplace is based in Guatemala

★ Public Health Internship

- Non-profit organization partner: SportsTec
- SportsTec is based in South Africa

COURSE DESCRIPTION

Throughout the internship, student interns from all focus areas will collectively take part in the core curriculum, which aims to understand the application of theory to practice in the field. Student interns will participate in weekly career development focused workshops led by their Internship Supervisor, who will guide them through a series of lessons, activities and projects designed to enhance student's essential employability competencies as well as to provide guidance and assistance toward the development of the individual student's technical competencies as it relates to their thematic focus area projects.

Assignments throughout the internship will take the form of individual and small group projects (with team members from both within and outside of their focus areas), with the intention of sharing and enhancing the peer-to-peer learning experience on the course. Student interns will be assigned individual sections to complete within a group project so that assessments can still reflect individual progress. Solo projects can be arranged by request.
